---

### //EDUCATION

#### +SANTA MONICA COLLEGE

Computer Science  
GPA: 4.0

Relevant Coursework:

Introduction to Data Structures and  
Algorithms, C Programming,  
C++ Programming, Introduction to Assembly  
Language Programming

#### +BERKLEE COLLEGE OF MUSIC

Music Education  
GPA: 3.5

### //TECHNICAL EXPERIENCE

#### +PROJECTS

##### FLACK

Flack is an online messaging service, similar in spirit to Slack. Users can sign into the site with a display name, create channels to communicate in, as well as see and join existing channels. Once a channel is joined, users can send and receive messages with one another in real time.

*Skills Utilized:* Python, Flask, JavaScript, HTML, CSS Grid, AJAX, WebSockets, socketIO, UX/UI design.

##### CHEERS!

Cheers! is a Single Page Web Application designed to interactively participate in the Front-End Happy Hour podcast.

*Skills Utilized:* 3rd Party API Integration, JavaScript/HTML/CSS, cross browser testing, SVG

##### BOOK REVIEW CENTRAL

Book Review Central is a back-end focused web project about books. It includes features such as search, reviews and ratings, book review data via the Goodreads API, as well as its own RESTful API route which serves book data and review statistics in JSON format.

*Skills Utilized:* RESTful API creation, server-side input validation, user authentication, password hashing, CRUD operations with a PostgreSQL database.

Additional projects and information available at my [portfolio site](#).

### //OTHER EXPERIENCE

Fawn Lettering – Calligraphy and design studio  
Shop Manager | 2018 – present

- Manage purchasing, expenses, and our e-commerce store front.

Vespertine – Two Michelin Star restaurant and 2017 No. 1 Restaurant in LA  
Server | 2017 – 2018

- Earned level one pin from the Court of Master Sommeliers.
- As part of the opening team, I helped the restaurant to become named the best restaurant in Los Angeles on the Pulitzer prize winning critic Jonathan Gold's list.
